EDUCATION

Bina Nusantara University Bekasi, Indonesia
B.S. in Information Systems, Business Information Technology; GPA: 3.26/4.00
Relevant Coursework: Digital Innovation, Artificial Intelligence, IT Governance and Security, Database, Enterprise Business Process, Information Systems Management, Strategy and Acquisition, Algorithm and Programming

EXPERIENCE

Yayasan Al Muslim & Yayasan Pendidikan Salman Al Farisi Bekasi & Bandung, Indonesia
School Operations Support
- Helped manage school schedules and workflows at family-owned schools; supported financial and infrastructure intake processes.
- Worked on school promotional videos and taught a class on environmental awareness and editing skills at Yayasan Al Muslim.

PROJECTS

WCin - Sanitation Services Marketplace Concept University Group Project
- Contributed to a digital marketplace concept for sanitation services in Bekasi, with clearer pricing, booking, and service-provider information.
- Team deliverables included user personas, empathy maps, a value proposition canvas, business-model analysis, and a web prototype.

EcoWise - Sustainability Web Application University Group Project
- Participated in a web application project supporting SDG 12 through consumption tracking, food-expiry management, and community sharing.
- Team deliverables included PHP application code, a MySQL database, interface styling, an ERD, and a page map.

Kedai Kopi Tiam - Information System Project Management University Group Project
- Contributed to an academic plan for an integrated information system across a ten-outlet coffee business; named Project Manager in the simulated charter.
- Planning covered scope, schedule, budget, risks, RACI, and rollout, with a WBS, Gantt chart, and activity network diagram.

Kenangan Kopi - Coffee Store Web Application University Group Project
- Participated in a coffee-store web application project with branch discovery, menus, cart management, order history, and customer/admin areas.
- Team deliverables included PHP pages, JavaScript interactions, CSS styling, and a MySQL database script.

LEADERSHIP & ACTIVITIES

TK Wirawati Catur Panca Indonesia
- Taught kindergarten students about keeping their school environment clean and caring for the environment.

Environmental Cleanup Activities Bekasi, Indonesia
- Participated in three cleanups at Bina Nusantara University and Hutan Kota Patriot Bina Bangsa, contributing to cleaner campus and public spaces.
